## Why Online Restricted Party Screening?

### KEY BENEFITS FOR YOUR ORGANIZATION

#### GLOBAL COMPLIANCE

Ensuring everyone is on the same page and using the same screening processes is tough to achieve unless you have software that works the way you work, and fits in seamlessly with your regular business processes. *Visual Compliance* addresses your needs with a single platform that enables the visibility to support effective company-wide compliance.

#### RISK COUNTRY ALERTS

It’s not only with whom you do business but which countries are involved. An individual or a company may not appear on a restricted parties list, but dealing with them may violate sanctions or embargoes.

Each time you screen with *Visual Compliance*, your results return risk country notifications, identifying any problem countries named during the screening process.

#### LOW FALSE POSITIVES

With restricted parties screening, it’s not about catching the lowest or the highest number, it’s about catching the right number.

*Visual Compliance–Restricted Party Screening™* solutions use powerful proprietary search algorithms to intelligently assess your screening criteria and deliver the relevant matches you need to make an informed decision.

#### TRAINING AND SUPPORT

We are committed to working with you to help you maintain a strong compliance program. You’ll have a dedicated Customer Service team throughout your compliance journey, with online training, and our training center featuring easy-to-follow videos.

#### MODULAR APPROACH

We provide an *à la carte* menu of compliance solutions, which allows you to focus on your key risk management needs. As your business needs change, *Visual Compliance* adapts to support you.

#### INCREDIBLY INTUITIVE

*Visual Compliance* is an intuitive system that anyone in your organization can learn to use quickly and easily. Those who use *Visual Compliance* love it. It’s as simple as that.

Our greatest advocates are our clients. Our diverse client base includes organizations in every industry, in locations all around the globe. We understand that meeting trade, export and financial compliance has an impact on their ability to do business. That’s why we’re there from the first meeting, through to going live and then providing ongoing support.
